Delhi, New Delhi, India

OBJECTIVE

I want to work in full-stack engineering or applied roles that demand ownership, end-to-end product thinking, and execution at scale, building robust, production-level products with real-world impact.

EXPERIENCE

- **Industries Cloud, Salesforce**  May 2025 – Jun 2025
AMTS Intern (Pre-Placement Offer) Bangalore
 - Automated FlexCard's in OmniStudio by building a **MCP Server**, reducing manual UI creation by **90%**.
 - Wrote Custom tools, integrated MCP with Cursor, migrated codebase to TS, and integrated **SOQL** for data retrieval.
 - Implemented **LLM orchestration** (RAG, chunking, fallback logic, caching) to scale metadata generation.
- **Sazabi AI**  Jul 2025 – Present
Founding Engineer San Francisco (Remote)
 - Built core product features, including **Linear, Slack, and GitHub** integrations, notifications (Inngest, Sentry).
 - Developed **React** frontend, **MCP servers/tools** and an agentic framework using **LangGraph**.
 - Deployed and managed serverless applications on **AWS Lambda**
- **Noora Health (Y Combinator '24)**  Dec 2023 – May 2024
Machine Learning Intern Remote
 - Digitised patient reports using **Reasoning LLM** methods on **multimodal Gemini models**, achieving **85% accuracy**.
 - Built a **multilingual RAG system** for maternal health queries, supporting multiple languages.
- **Dainik Jagran & Google Cloud** Nov 2023 – Dec 2023
Selected Participant (Top 7 out of 9,000+ IITK students) Noida
 - Built Gen-AI web stories using **GCP** to boost social media footprint.
 - Used **Imagen** for image captioning and **PaLM-2** for narrative generation; stored outputs in **GCP Buckets** and generated stories via **Google Web Stories API**.
 - Achieved **2x increase** in content output, delivering **7,000 stories/day** to **120M+ users**.

EDUCATION

- **Indian Institute of Technology Kanpur** 2022 – Present
B.Tech in Electrical Engineering (Minor: Machine Learning & Systems) Kanpur, India
 - CGPA: **9.0/10**
- **Delhi Public School, Faridabad** 2022
Class XII (CBSE) Faridabad, India
 - Percentage: **96.0%**
- **Delhi Public School, Faridabad** 2020
Class X (CBSE) Faridabad, India
 - Percentage: **97.2%**

PROJECTS

- **UP Police** Aug 2024 – Jan 2025
UP Police Notice Information System
 - Extracted Hindi text, performed semantic chunking, and indexed documents in Pinecone for retrieval.
 - Built a multilingual React + Flask web app, deployed at rag.agrapolice.in.
 - Showcased at **All India Police Conference 2024**, received a **Letter of Appreciation** from **DCP Agra City**.
- **Wadhvani AI** Jul 2024 – Dec 2024
AI-Driven Video Segmentation for Educational Content
 - Implemented **LGSS (CVPR'20)** and **NeighborNet** using multimodal features, Bi-LSTMs, ResNet50 embeddings.
 - Processed AVLectures & MovieNet datasets, replicated baselines, and ran cross-domain evaluations on the CwS.
 - Achieved **mIoU = 0.894**, **mAP = 13.5%**, and **F1 = 0.435** through domain-specific fine-tuning and graph refinements.
- **People + AI, EkStep Foundation** Jul 2024 – Dec 2024
Sukoon: AI-Driven Mental Health Support
 - Developed a multi-agent mental health system using **LangGraph**, GPT-4/Claude, and clinically-aligned agents

- Deployed the platform on **WhatsApp** and **Streamlit** with a python backend framework.
- Conducted large-scale testing with 581 users, achieving a **34% increase** in daily engagement.

• Dream11

Dec 2024

Team Recommendation System — Inter IIT Tech Meet 13.0

- Built ML pipeline with **neural networks** and **boosting** to optimize playing XI selection
- Engineered **100+ contextual features** using RFE + SHAP for feature selection and interpretability
- Developed a **modular backend** with a **React** UI enabling drag-and-drop customization and real-time analytics
- Deployed an **LLM assistant** offering multilingual insights and strategic recommendations

• MADHAV Labs, IIT Kanpur

Jan 2025 – Present

GNN-based AQI Forecasting

- Built spatial-temporal graphs linking ERA5 grids + AQI stations across 133 locations.
- Implemented encoder-decoder using GATConv, GCNConv, SAGEConv; achieved **RMSE 33.64**.
- Addressed missing data using interpolation + imputation.

• CDIS Labs, IIT Kanpur

Sep 2023 – Apr 2024

Open Intelligence for Poverty Prediction

- Used VIIRS nightlight, Mapbox imagery, OSM data; fine-tuned VGG16 for feature extraction.
- Trained XGBoost + SVM to classify income levels for **7M+ families in Haryana**.

PATENTS AND PUBLICATIONS

1. **DST MedTech White Paper**. Drafted a national strategy to reduce India's 85% MedTech import dependence; benchmarked 15+ countries. (DST, Govt. of India)
2. **Sukoon: People + AI Mental Health**. Co-authored open-source mental health AI paper; coordinated 600+ participants, 50+ health workers, 10+ NGOs for pilot at IITK.

HONORS AND AWARDS

• Academic Excellence Award

2024–25

IIT Kanpur

- Awarded for exceptional academic performance.

• AIR 1181

2022

JEE Advanced

• AIR 763

2022

JEE Mains

• Chairman's Gold Medal

2014–2020

DPS Faridabad

• HScTSS Scholarship

2020

Govt. of Haryana

• 4th Place - Google Solutions Ideathon

2023

Google

LEADERSHIP EXPERIENCE

• Contingent Leader, Inter IIT Tech Meet 14.0

July 2025 - December 2025

Indian Institute of Technology Kanpur

- Led **IIT Kanpur** to an overall **2nd position** at **Inter IIT Tech Meet 14.0**, ending a **6-year** podium gap
- Executed structured long-term planning with clear ownership, accountability, and parallel execution across teams
- Did relentless review and iteration, promoting product-market fit, technical novelty, and strong presentation quality

• Leader, IITK Consulting Group

May 2024 - May 2025

Indian Institute of Technology Kanpur

- Led a **40-member** team and built partnerships with **10+** social organizations for pro-bono consulting engagement
- Promoted ICG at the **Global India AI Summit** to initiate an Advisory Board with experts from **5+ sectors**
- We saw **2x YoY** growth in projects, **4x increase** in funding, and strategic partnerships with Aadhaar and UPI

SKILLS

- **Programming:** C, C++, Python, JavaScript, TypeScript, Haskell, Ruby
- **Frameworks:** LangGraph, LangSmith, OpenAI, PyTorch, React, Next.js, tRPC
- **Cloud:** AWS Lambda ecosystem, GCP (Vertex, Buckets), Salesforce Cloud
- **Tools:** Git, Linux, HuggingFace, LaTeX, SLURM, Verilog, MIPS

RELEVANT COURSEWORK

- **CS:** Machine Learning (A), Foundations of Modern AI (A), Software Development & Operations (A), Statistical NLP (B+), Cryptography (B+)
- **EE:** Signals & Systems (A), Communication Theory (A), Digital Electronics (A), Control Systems (B+)
- **Math:** Probability & Statistics (A)
